Full-Stack Developer

Buenos Aires, Argentina | (+54) 11 4989 64 | [orianapettinelli1@gmail.com](mailto:orianapettinelli1@gmail.com) | [Linkedin](#) | [Github](#)

## ABOUT ME

I'm a driven and enthusiastic Full-Stack Developer currently pursuing my undergraduate degree in Computer Science at the National University of Quilmes. With a strong passion for programming, computer science, and languages, I am eager to contribute my skills and knowledge to the world of software development.

As a dedicated professional, I am committed to continuously expanding my skill set and staying up-to-date with the latest industry trends and best practices. I thrive in collaborative environments, where I can leverage my problem-solving abilities and creativity to deliver efficient and innovative solutions.

## SKILLS

JavaScript		Node.js		React		Css
Git		Github		Next.js		Agile Methodologies

## EDUCATION

### Bachelor's Degree in Computer Science

2022/current

University of Quilmes

Solid foundation in computer science fundamentals and technical skills in key areas such as programming, data structures, and software development.

### Full-Stack Development Bootcamp

2023

Henry

I successfully completed an intensive full-stack development bootcamp that emphasized hands-on learning and practical experience. Throughout the program, I gained comprehensive knowledge and skills in front-end and back-end technologies, including HTML, CSS, JavaScript, Node.js, React, Express and more.

## LANGUAGES

- English: C2
- German: A2
- Spanish: Native

## PROJECTS

### Henry's Final Project:

For the culmination of my full-stack bootcamp journey, I collaborated with a team of 5 talented individuals to create a dynamic and user-friendly e-commerce website. Our project, developed using agile methodologies, showcased our ability to work effectively as a team and deliver a comprehensive solution.

In the project, my primary focus revolved around the backend development.

### Henry's Individual Project:

A dog breed searcher SPA that utilized a sleek and intuitive user interface, allowing users to search for specific dog breeds and access comprehensive information about each breed. Through a seamless integration of frontend and backend technologies, I successfully developed a responsive and visually appealing application. For this project I worked the whole stack.

### Sudoku App:

I designed and developed a captivating Sudoku app using React, showcasing my expertise in front-end web development. This app provides an engaging and user-friendly interface for playing Sudoku puzzles online.
