ABOUT ME

I'm a driven and enthusiastic Full-Stack Developer currently pursuing my undergraduate degree in Computer Science at the National University of Quilmes. With a strong passion for programming, computer science, and languages.
I have hands-on experience with React, NextJs, Express, mySQL and agile methodologies.
As a dedicated professional, I am committed to continuously expanding my skill set and staying up-to-date with the latest industry trends and best practices. I thrive in collaborative environments, where I can leverage my problem-solving abilities and creativity to deliver efficient and innovative solutions.

PROJECTS

Henry's Final Project: **2023**

 For the culmination of my full-stack bootcamp journey, I collaborated with a team of 5 talented individuals to create a dynamic and user-friendly e-commerce website. Our project, developed using agile methodologies, showcased our ability to work effectively as a team and deliver a comprehensive solution.
 In this project, my primary focus revolved around backend development.
Core Skills: Express Js, Sequelize, mySQL, postgreSQL, SCRUM methodology **Repository**

Henry's Individual Project: **2023**

 A dog breed searcher SPA that utilized a sleek and intuitive user interface, allowing users to search for specific dog breeds and access comprehensive information about each breed. Through a seamless integration of frontend and backend technologies, I successfully developed a responsive and visually appealing application. For this project I worked the whole stack. **Repository**

Sudoku App: **2023**

 I designed and developed a captivating Sudoku app using React, showcasing my expertise in front-end web development. This app provides an engaging and user-friendly interface for playing Sudoku puzzles online.

SKILLS

JavaScript		Node.js		React		Css
Git		Github		Next.Js		Agile Methodologies

EDUCATION

Bachelor's Degree in Computer Science   **2022/current**
University of Quilmes
Solid foundation in computer science fundamentals and technical skills in key areas such as programming, data structures, and software development.

Full-Stack Development Bootcamp   **2023**
Henry
I successfully completed an intensive full-stack development bootcamp with over 700 hours of theoretical and practical material that emphasized hands-on learning and practical experience. Throughout the program, I gained comprehensive knowledge and skills in front-end and back-end technologies, including HTML, CSS, JavaScript, Node.js, React, Express and more.
